Forest coverage within N2k ~ **2,05 million hectares**

NATURA 2000 FORESTS

Total N2k State = 1,11 million hectares

Total N2k Municipalities = 359,58 thousands hectares

Total N2k Private Owners = 576,25 thousands hectares

Total N2k Private Owners

STRICT PROTECTION
~ 30500 hectares

CONSERVATION/
SANITARY CUTTS
~111000 hectares

NO RESTRICTIONS –
RESPECTING THE MPs

NATIONAL STRATEGIC PLAN

UNDER THE MINISTRY OF AGRICULTURE AND RURAL DEVELOPMENT

which is.....

NOT REALLY INTERESTED IN NATURA 2000 PAYMENTS

- TOO MUCH WORK – HARD TO IMPLEMENT THE MEASURE
- LESS MONEY FOR AGRICULTURE
- LACK OF SPECIALISTS
- Every reason not to....

NOT GOOD FOR THE FOREST SECTOR

WHAT WE DID/DO/WILL DO

In 2018 two working groups between forestry, biodiversity and ministry of agriculture

- a decision “Working Party” – state secretary, directors
- a technical working group – working class

arised the need to identify restrictions in MPs

More than 50 MPs were studied and the result was a set of common restrictions:

Strict protection;

Management must apply conservation/sanitary cuts;

Substitution cuts – harvesting to promote natural type of forests;

Keeping 5% dead wood;

No use of chemical substances near the N2k sites (100, 200 meters);

Quiet areas for birds, so on;

Maintaining a divers forest structure(species, age), by keeping groups of 3-5 old trees – more than 80 years;

No roads(forestry or harvesting) within N2k sites;

Costs for complying FMPs with SEA Directive.

SO, IN ORDER TO VALIDATE A CERTAIN VALUE FOR THE RESTRICTIONS IDENTIFIED – WE NEEDED MONEY.

THESE MONEY WERE HIDING IN THE ENVIRONMENTAL FUND BUT WE SOW THEM

EU ALSO SAYS THAT THE STUDY MUST BE MADE BY SOMEONE VERY IMPORTANT AND CERTIFIED

NOW

THE TENDER PROCEDURE IS ON

We are hopping to have the study done by the end of March, 2021

By then maybe Ministry of Agriculture and Rural Development will change its mind

THANK YOU VERY MUCH
